Dear Sir/Mam,

I am a recent graduate with 4 months of internship experience as a ReactJS developer and 4 months of experience as a JavaScript developer. I have a solid understanding of ReactJS and have worked on several projects that involved building responsive and interactive user interfaces. My ability to work collaboratively with designers, back-end developers, and project managers has helped me deliver high-quality and user-friendly web applications.

I am confident that my technical skills and passion for front-end development make me a strong fit for this role. I am excited to bring my expertise in ReactJS and my commitment to creating intuitive and engaging user experiences to the team at your company.

In my current role, I have honed my skills in writing clean, maintainable, and efficient code, as well as my ability to learn new technologies quickly. I am comfortable working with a variety of front-end technologies and tools, including HTML, CSS, JavaScript, and Git. I am also familiar with Agile development methodologies and have experience working in fast-paced, deadline-driven environments.

I am eager to contribute my skills and passion to your company and help build world-class web applications. I believe that my experience and enthusiasm make me a strong candidate for this position, and I am excited about the opportunity to join your team and grow my career.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.

Sincerely,

Chirag Mandyal
